LEADERSHIP FOUNDATIONS

Leadership Foundations is a set of universal leadership principles and leading practices organized around character development, skillful actions and relationship building. A significant premise is that leadership engages us in others people's lives, and before inserting ourselves, all of us should know how to lead our own lives first.

“This course demonstrated that your ethics are your personal brand whether you realize it or not. When you look inside and align your work with your values you get more satisfaction out of work and it makes life more meaningful.”

*Leah Cribari, Laboratory Supervisor,
Eagle River Water & Sanitation District.*

OUTCOMES:

- | Sharpen your skills and strengthen your character
- | Gain increased insight into your core values
- | Build trust with those on whom you depend on
- | Explore integrity by examining your beliefs and values system
- | Differentiate between ethics and morality
- | Understand the interactivity of listening and feedback

SUCCESSFUL COMPLETION
